Portfolio

SUMMARY

Full-Stack Developer with about 1 year of project-driven experience building and deploying MERN and Next.js applications. Skilled in JWT-based authentication, REST API design, MongoDB data modeling, responsive UI design with Tailwind CSS and shadcn/ui, and advanced state management using TanStack Query, Zustand, and Redux. Electrical Engineering background with hands-on experience developing real-world full-stack projects. Currently seeking **remote**, **contract** Full-Stack Developer roles.

TECHNICAL SKILLS

Frontend	React, Next.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS, Shadcn UI
Backend	Node.js, Express.js, REST API design, JWT/cookie auth, bcrypt, logging middleware and requests, testing and error handling
Database	MongoDB, Mongoose, PostgreSQL
State/Data	TanStack Query, Zustand, Axios, Redux
Tools	Git, GitHub, Postman, VS Code, Docker, Jest, Vercel, Render

PROJECTS

E-commerce Platform

[Live Demo](#) | [Frontend](#) | [Backend](#)

React, Node.js, Express, MongoDB, JWT, Tailwind CSS, Zustand, TanStack Query, Axios, React-toastify

- Built a responsive full-stack e-commerce platform with 6 resource modules (products, orders, reviews, etc.) and 40+ REST endpoints, with role-based access for users and super-admin.
- Implemented user/admin JWT authentication, protected APIs, file uploads, validation, and a separate super-admin dashboard for managing products, categories, brands, orders, and reviews.
- Integrated a payment gateway with success, failure, cancel, and IPN callback handling, plus Multer file uploads and an admin order export to CSV. Backend deployed on Render and frontend on Vercel.

Blog Service (Full-stack)

[Live Demo](#) | [Frontend](#) | [Backend](#)

React, React Router, Vite, Tailwind CSS, Node.js, Express, MongoDB, JWT, Zustand, TanStack Query, bcrypt, Docker

- Developed a full-stack blog platform using React, Node.js, Express.js, MongoDB/Mongoose, with responsive UI and RESTful API integration.
- Implemented JWT-based authentication with protected routes, user registration/login for creating, editing, and deleting blog posts; secured passwords using bcrypt.
- Built nested comment/reply functionality with hierarchical comment trees. Containerized the backend with Docker and deployed it on Render. The frontend deployed on Vercel.

Full-Stack MERN Job Portal

[Live Demo](#) | [GitHub](#)

React 19, Vite, Tailwind CSS, Node.js, Express, MongoDB, JWT, Zustand, TanStack Query

- Built a full-stack job portal with job posting and management with role-based access for applicants and employers, job applications, status flow, search and filtering, protected APIs, and user dashboards.
- Implemented JWT authentication with an Axios interceptor that handles 401 responses.
- Used Zustand, React Query, Axios, and Tailwind CSS for state management, API integration, and responsive UI.

Developer Portfolio

[Live Site](#)

Next.js, App Router, Tailwind CSS, Vercel, TypeScript

- Designed and built a responsive personal portfolio with Next.js, Tailwind CSS, and TypeScript. Deployed on Vercel.

PROFESSIONAL EXPERIENCE

Assistant General Manager (O&M), Bangladesh Rural Electrification Board

Nov 2020 – Present

- Manage and supervise electrical distribution and maintenance activities for a workforce of 45+ employees.
- Coordinate technical teams, troubleshooting to keep 33/11 kV substations and protection systems running reliably.

EDUCATION

B.Sc. in Engineering, Electrical & Electronic Engineering

2015 – 2019

Dhaka University of Engineering & Technology (DUET) | CGPA: 3.60 / 4.00

Diploma in Engineering in Electrical Technology

2010 – 2015

Pabna Polytechnic Institute, Pabna

CERTIFICATIONS & ACHIEVEMENTS

- MERN Stack Developer (Ostad) • Full Stack Developer (Mimo) • Programming For Everybody (Coursera)
- 1st Runner-up, Project Exhibition, DUET CSE Fest 2019
- Languages: Bengali (native), English, Arabic
